CLAIMANT INDEX

An index to claimants of copyright on works listed in the main and renewal sections of this issue. Under claimant are listed, first, the titles of the works of which the claimant is also the author; second, other works, the title in each case being preceded by the heading under which it will be found. Entries in the renewal section are distinguished by the renewal registration number which follows the title.

REMOVAL OF DEPOSITS FROM COPYRIGHT OFFICE

NOTICE is given to authors, copyright proprietors and other lawful claimants that they may claim and remove before January 1, 1953, any article of the following named classes of published works deposited for copyright between January 1, 1949, and January 1, 1950, not reserved or disposed of as provided by sections 213 and 214 of Title 17 of the United States Code and still remaining in the files of the Copyright Office at the time of the request for their removal. The classes of published works covered by this notice are:

Contributions to periodicals.

Works of art; models or designs for works of art.

Reproductions of a work of art.

Drawings or plastic works of a scientific or technical character.

Photographs.

Prints and pictorial illustrations excluding prints or labels used for articles of merchandise.

Other published works and all unpublished works are excluded from this notice.

The request for the removal of any copyright deposit should be signed by the person entitled thereto or his duly authorized agent. Such request should identify the work by stating the title, author, copyright proprietor, registration number and year of deposit, and should be addressed to the Copyright Office, Library of Congress, Washington 25, D. C.

L. C. card, 6-35347

This number identifies the Library of Congress printed card for the complete series of the Catalog of Copyright Entries.

For sale by the Registrar of Copyrights, Library of Congress, Washington 25, D. C. Price for this part: $1.50 per issue, $3.00 per year.

PREFACE

WORKS registered in the Copyright Office in Class A, Books, are divided between Parts 1A and 1B of the *Catalog of Copyright Entries*, with the exception of greeting cards, which are listed in in Parts 7–11A.

Part 1A contains domestic and foreign books and pamphlets, registered under the symbols A, AF, and AI, which have been selected for the general collections of the Library of Congress. They constitute, in general, the current output of the book publishing industry of the United States and the works of foreign origin of present or potential interest to the American book trade. Part 1A includes trade books (novels, poetry, biographies, travel books, children's books, etc.), scientific and technical books, reference books, dissertations and monographs of scholarly importance, books issued by university presses and other similar monographic works.

Part 1B lists all other works registered in the Copyright Office in Class A, usually distinguished by the symbol AA. These are predominantly of a pamphlet or serial nature and comprise a wide variety of domestic and foreign works. Pamphlet material includes reports, surveys, manuals, instruction books, tests, as well as other monographic works in all subject fields. Typical of the serial material are yearbooks, directories, trade catalogs, commercial, industrial and legal services in loose-leaf or pamphlet form, etc. Contributions to periodicals registered in Class B under the symbol B5 are listed in Part 1B. Included also in the catalog are the following: registrations of copyrightable printed matter which appears upon materials of diversified physical form; foreign periodicals which have been registered under the symbols AF and AI and which are not included either in Part 1A or Part 2; and a full listing for the period covered by this catalog of certain serial publications which may be registered under the symbols K, AA, or B5.

Works listed in Part 1A were registered in the Copyright Office from July 1, 1951, through December 31, 1951. Renewal registrations made in Class A other than contributions to periodicals are listed in the second section of this catalog.

Arrangement.—The catalog is divided into four sections. The first section consists of an alphabetical arrangement of complete entries for current works under main headings (author, editor, compiler, or title) and of brief entries in the form of cross-references from joint authors, editors, etc. The second section, similarly arranged, lists renewal registrations made in Class A. The third section is a "Title Index" to both current and renewal entries. The fourth section, the "Claimant Index," lists the names of the persons or organizations named in the applications as copyright claimants. In both title and claimant indexes references to renewal entries are distinguished by the renewal registration number following the title.

Bibliographic Data.—Each main entry for current works includes, as applicable, 1) the title as given on the title page; 2) names of all joint authors—unless there are more than three, in which case only the first is given—illustrators, editors,

compilers, translators, and authors of prefatory material; 3) edition statement, together with any available information of previous publication under a different title; 4) imprint, consisting of place of publication, publisher and date of publication (imprint data is omitted in whole or in part when the information supplied to the Copyright Office has indicated that the claimant given in the copyright statement is also the publisher and that the date of publication agrees with the corresponding data given in the copyright statement); 5) collation, consisting of pagination or number of volumes and the abbreviation "illus." to indicate any illustrative matter not shown elsewhere in the entry; 6) series.

Renewal main entries include the following data, as applicable, 1) heading; 2) title; 3) names of all authors of renewable matter; 4) edition statement; 5) number of volumes if more than one; and 6) series.

Each added entry cross-reference consists of the name of the joint author, illustrator, editor, etc., and the title of the main work, followed by reference to the heading under which the complete entry will be found.

Copyright Data.—For current works the portion of the entry giving the facts of copyright registration begins with the copyright symbol ©. This is followed by 1) a brief statement of the new matter on which copyright is claimed when such a statement is given in the copyright application; 2) the name of the copyright claimant, the chief place of publication given on the title page (if not given in a separate imprint statement); 3) date of publication as given in the application; 4) registration number. For ad interim works, the date the work was deposited in the Copyright Office, preceded by the abbreviation "1c" or "2c," is also given. Any information contained in the copyright application or in the copy of the work itself which relates to the registration of an earlier version of the work is given in brief form at the end of the entry.

For renewal entries, the facts of copyright registration begin with the copyright symbol ©. This is followed, as applicable, by 1) a brief statement of the new matter on which copyright is claimed when the information can be secured from the renewal application or the records of the Copyright Office; 2) date of original copyright; 3) original registration number; 4) renewal registration number; 5) date of the receipt of renewal application; 6) name of the renewal claimant; and 7) an abbreviation in parentheses representing the applicant's statement of the basis of his renewal claim; e. g., John Doe (NK) indicates that renewal of copyright is claimed by John Doe as next of kin of the deceased author.

In the case of each entry the name of the copyright claimant is that given at the time of registration. Any information relating to subsequent changes of ownership recorded in the Copyright Office can be ascertained upon request and upon payment of the statutory search fee to the Register of Copyrights.

Deposit of Copies.—In the case of every copyright entry listed in this part of the *Catalog*, except in the case of renewal copyrights, the deposit of copies (or copy) as required by sections 13 or 215 of Title 17 of the United States Code has been made.

Authority.—The *Catalog of Copyright Entries* is published by authority of sections 210 and 211 of Title 17 of the United States Code. Section 210 provides in part: "The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

Organization of the Catalog.—This issue of the *Catalog* is part of Volume 5 of the Third Series. The parts are numbered according to the alphabetical sequence of classes as listed in section 5 of Title 17 of the United States Code. Letters are added to the part numbers to indicate subdivisions.

The classes of material principally contained in each part are listed, together with their respective symbols, under the title of the part in the "Table of Organization" which faces the title page in this issue. In each case, the first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for purposes of statistical analysis of registrations. Foreign works for which two copies have been deposited, under section 215, of Title 17 of the United States Code, are distinguished by a zero immediately following the symbol. The symbol R does not represent a class designated by the Copyright Act, but has been adopted by the Copyright Office to distinguish renewal copyright registrations. Some parts also contain registrations

made under symbols other than those listed for the particular part if the subject matter or type of material of these registrations is similar to that generally included.

Orders.—Orders for all parts of the *Catalog* should be sent directly to the *Register of Copyrights, Library of Congress, Washington 25, D. C.* Orders may be placed as follows: (1) as a subscription for a single year or to continue until further notice, or (2) as an order for individual issues. All orders should state clearly the title of the *Catalog* part and the inclusive dates of the issues wanted. For the convenience of subscribers, payment may be made either with the order or upon receipt of an invoice from the Copyright Office. *Checks or money orders should be made payable to the Register of Copyrights.*

The price of each individual number of the *Catalog* is given in the "Table of Organization." The annual subscription rate for each part is twice the price of a single number, since all parts are issued semiannually. The complete *Catalog of Copyright Entries* may be secured on a subscription basis for $20 a year.

Inquiries.—The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Please address communications of this nature to the *Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.*

ABBREVIATIONS

The following list includes abbreviations and symbols used in this catalog with specific copyright or bibliographic meanings. Definitions are not given for abbreviations in common use.
